CORPORATE COMPANY PROFILE

WELD PURGING PRODUCTS
INNOVATORS, MANUFACTURERS and
INTERNATIONALLY RENOWNED
SPECIALISTS

Established in 1975, Huntingdon Fusion Techniques HFT® is acknowledged as an international leader and manufacturer in weld purging technology.

With advanced engineering and technical expertise together with a fundamental knowledge in the welding market place, Huntingdon Fusion Techniques HFT® design and manufacture an ever expanding range of weld purging equipment and ancillary products.

Huntingdon Fusion Techniques HFT® is recognised for Worldwide customer support, providing cost effective solutions, expert advice and quality products for achieving ultra clean welds produced in a well purged environment.

Leading fabricators across the globe in construction, petrochemical, aerospace, power generation and process industries rely on these advanced products for the welding of stainless steel, titanium and other corrosion resistant metals.

All products are manufactured to internationally recognised standards following fully accredited quality control procedures.

Huntingdon Fusion Techniques HFT® is a powerful International Company with highly trained teams and specialists across the globe.

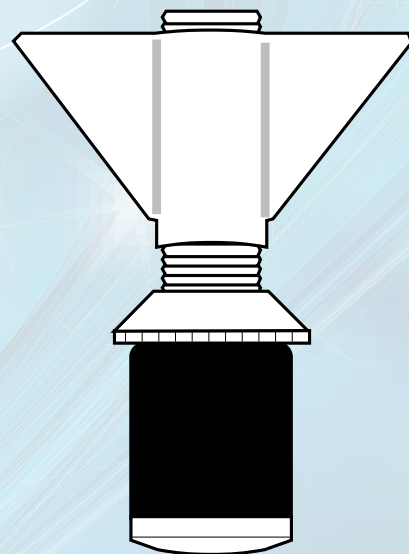

With offices and branches stretching across all 5 continents, Huntingdon Fusion Techniques HFT® are able to provide all equipment necessary for achieving that perfect clean weld.

Some of our **Brand Names** include:

- Argweld®
- PurgEye® Weld Purge Monitor®
- PurgElite®
- QuickPurge®
- RootGlo®
- Intacal®
- PurgeGate®
- Techweld® MultiStrike® Tungstens

HFT Pipestoppers® The trademarks are synonymous with Huntingdon Fusion Techniques HFT® for design, innovation and manufacture of advanced **weld purging products**.

Huntingdon Fusion Techniques HFT® is proud to be the World's premier pioneering innovator and manufacturer in the field of weld purging technology.

HFT PIPESTOPPERS®

Founders of Huntingdon Fusion Techniques HFT®, PhD qualified specialists in welding metallurgy and gas physics have more than 50 years experience in their respective fields.

They are proud to have shaped the Company of 44 years to become the acknowledged World Leaders in gas weld purging techniques.

From their early beginnings with the development of the World's first **Weld Purge Monitor®**, Huntingdon Fusion Techniques HFT® has maintained its position at the forefront of technology by developing and evolving new products to maintain pace with advancing technology and market demands.

Prestigious Headquarters with extensive offices, factory and warehousing are strategically located near high speed roads, seaports and international airports, allowing efficient shipments and quick deliveries to all Distributors and Customers in every part of the globe.
