

# PurgeAlarm™

## Visual Alarm Indicator

The **PurgeAlarm™ Visual Alarm Indicator PNA-02** is an IP66 rated industrial traffic light style column to convey the alarm status of your PurgEye® Weld Purge Monitor®.

The light column can be mounted through a 23 mm diameter hole with a maximum material thickness of 15mm.

As standard, the **PurgeAlarm™ Visual Alarm Indicator PNA-02** includes a single red indicator, with 360 degree visibility. The red indicator will be illuminated only if the PurgEye® has warmed up, the alarm enabled and is reading a value greater than the alarm threshold set by the user.

- 360 degree visibility.
- Red warning indicator.
- Green 'ok to weld' indicator (optional).
- 85dB Sounder (optional).
- IP66 Environmental Protection.
- 1.4m PurgeNet™ data cable.
- Easy mounting through a single 23mm hole (wall mounting with optional bracket).
- PurgeNet™ loop connector for connection of other PurgeNet™ accessories.
