

# RootGlo®

Central glow band, giving you accurate positioning in the pipe

## Technical Data Sheet

RootGlo® is a highly luminescent central glow band fitted as standard on Huntingdon Fusion Techniques HFT®'s range of Inflatable Tube and Pipe Purging Systems, for easy view through the weld root gap, ensuring accurate positioning in the pipe.

HFT®'s RootGlo® contains specifically designed materials that charge with as little as 10 minutes exposure to daylight, then will glow in the dark for up to 20 hours.

Available on **Inflatable Tube and Pipe Purging Systems PurgElite®, QuickPurge® and HotPurge®.**

RootGlo® luminous products comply with the following international standards:

- ASTM E-2072-0 / e-2073-00
- ASTM E-162 / E-648 / E-662
- IMO Resolution A.725 (18)
- DIN 67510 (Parts 1-4)
- ISO / CD 15370
- Marine Safety Committee MSC .27/(61)
- PSPA Standard 002 PART 2 1993 Class REV 2:09/99
