

# Techweld® MultiStrike® TUNGSTEN ELECTRODES

USE THE HEALTHY ALTERNATIVE

SAFE TO USE

FULLY TRACEABLE

© HFT®

THE SAFER, BETTER TUNGSTEN FOR ALL  
YOUR WELDING NEEDS

# 5 REASONS **NOT to USE** THORIATED TUNGSTENS

1. Thoria is recognised as a carcinogen.
2. Some of the major manufacturers have ceased production of thoriated tungstens because of the health risks posed and many thoriated tungstens now originate in China.
3. Dust from thoriated tungstens is likely to remain in lungs for years after inhalation.
4. Deposits in lungs can lead to lung damage.
5. Can cause pulmonary fibrosis and pneumocirrhosis.

# 5 REASONS **to USE** MULTISTRIKE® TUNGSTENS ELECTRODES

1. Contains NO carcinogenic material.
2. For AC and DC welding.
3. Can be used on aluminium welding.
4. Increases the number of arc strikes before re-sharpening is necessary.
5. Lowers the working temperature giving cooler welds.
6. Every package is totally traceable.

TECHNIQUES ■ HFT

#### Our Product Range:

Argweld® Inflatable Pipe Weld Purge Systems  
Argweld® PurgEye® Weld Purge Monitors® (Models 100 to 1000)  
Argweld® Water Soluble Weld Purge Film and Weld Purge Super Adhesive™  
Argweld® Weld Trailing Shields®  
Argweld® Weld Backing Tape™ & Weld Purge Tape™  
Argweld® Flexible Welding Enclosures®  
Argweld® Weld Purging Plugs™ & Orbital Welding Plugs  
Techweld® MultiStrike® Tungsten Electrodes  
**HFT Pipestoppers® Division:**  
Nylon, Aluminium, Steel and Rubber Pipe Plugs and Inflatable Stoppers
