

HFT PIPESTOPPERS®

HFT Pipestoppers® Inflatable Low Profile Stoppers

Inflatable Low Profile Stoppers are a low-cost alternative to aluminium and steel stoppers which are heavier, may be difficult to manipulate and expensive to ship.

These simple to use Inflatable Low Profile Stoppers can be purchased for any diameter within their manufacturing range and can be used in connection with other styles or sizes of stoppers elsewhere within the piping system.

Heat Protective Covers are available in various grades to protect up to 300°C (572°F).

In addition the Stoppers can be protected against petrochemical products.

MAIN FEATURES:

- Single ended lightweight stoppers for closure welds, T piece joints and dome end connections, to prevent gas, debris etc. entering or leaving and to make leak and pressure tight seals.
- These Inflatable Stoppers provide an excellent grip in the pipe with an effective all-round seal.
- Manufactured for circular orifice diameters from 6 - 88" (152 mm - 2235 mm).
- Each Stopper is easy to inflate with a hand pump, a foot pump or an airline.
- The Stopper is inflated and seals all around the internal circumference of the pipe.
- Each stopper is equipped with a Schrader Valve for inflation.
- The Low Profile Stoppers are heat resistant up to 80°C (176°F).

8", 10", 12" and 24" Low Profile Stopper

Nylon Expanding Plugs are light, non rusting easy to expand and can be dismantled for cleaning purposes and part replacement if required.

© HFT®

Inflatable Stoppers are available as Cylindrical, Spherical or Special Stoppers for use when breaking into existing lines for repairs, maintenance and new sections.

© HF

HFT Pipestoppers® manufacture a range of expanding pipe plugs that form a positive seal between surfaces and achieve an air and water-tight seal. **Aluminium Plugs** conform to ISO Standards and British Standard BS 8005 for low pressure testing and sealing of pipes.

© HFT®

Inflatable Rubber Pipe Plugs are ideal for fast, reliable and safe stopping and blocking of pipes, joints, channels, inlets and a number of other uses.

© HFT®

Heat Resistant Covers can endure such high temperatures, which protects the inflatable stoppers, preventing them being damaged or bursting.

They are reusable time and time again, without losing their heat protecting properties.

HFT PIPESTOPPERS®

Product Range of HFT Pipestoppers® Division:

- Pipestoppers® Expandable Nylon Pipe Plugs
- Pipestoppers® Weld Purge Plugs™ & Orbital Welding Purge Plug Kits
- Pipestoppers® Expandable Aluminium Plugs
- Pipestoppers® Expandable Steel Plugs
- Pipestoppers® Spherical, Cylindrical and PetroChem™ Inflatable Stoppers
- Pipestoppers® Inflatable Low Profile Stoppers and Rubber Plugs
- Pipestoppers® Accu-Freeze™ & Qwik-Freezer™ ice plug makers
